Subject: RE: AR 2010-12-14-16 Deferred 303d List Actions - Letter to ADEQ 07.17.17 (003).docx

Thanks Rich.

On the Pruitt- Hutchinson letter: The first paragraph says we are taking an action and doesn't specify the action, however the second paragraph makes it seem like it is a straight up approval. Is that what we are working with? It does not seem consistent with the B. Keogh letter.

On the B. Keogh letter: Looking at the numbers of waters deferred and in light of our last conversation, it seems the Illinois River waters dropped from the deferral list. Does that mean we are going down the 4b route, rather than deferral? What is the status of these waters? Also, there are several comments we made on the ROD that should be carried over to the language in this letter. Specifically:

- "potential water body pollutant pairs" – Remove "potential"
- "The hereby approved 2016 CWA 303(d) list is the current list for all CWA purposes as found in Enclosure 1." – In our edits to the ROD we were careful not to say this, since deferrals revert to the status in 2008. Look back at those comments to edit.
