Hi Nathan and Chand,

Please find attached the revised Soil Management Plan (SMP) for the Pechiney site. The SMP was revised based on initial comments provided by EPA regarding the PCB elements of the SMP and figures have been added. Please let us know if you all have any additional comments, or if you all would like a redline version of the text noting the sections that have been revised. Also, to help expedite the review process, we can setup a call to discuss any comments or questions, any time.

Thank you, Linda
