I just got off the phone with John Jacobson, CEO of Atchison Hospital. They have seen 34 or 35 patients related to the incident that will be under observation for the CDC recommended 6 hours. One (1) patient is in ICU with respiratory distress. They had a lot of providers (physicians, PAs, nurses) available plus a light surgery schedule since it was Friday and they opened up pre- and post-op for the observation area. They are in good shape right now.
