Subject: RE: NAS IRIS Workshop: Review of Advances Made to the IRIS Process

Dear Dr. Brooks,
The NAS said that the roster of committee members will be released later this week. They are waiting for some paperwork to be completed. I will let you know as soon as I find out. I believe the contact for the workshop is Jessica Wolfman (jwolfman@nas.edu). She can likely register you for providing public comments to the committee.

Tina

Thank you for this, Dr. Bahadori. Please let me know NAS committee members.

If I want to attend/present do I contact NAS?

Thx
Karl Brooks

Dear Colleagues,

I wanted to let you know that the NAS has announced (below) the public workshop/meeting to evaluate IRIS Progress. This workshop will be held February 1-2, 2018.

I wish you all a peaceful Thanksgiving Holiday.

Tina

ENVIRONMENTAL STUDIES AND TOXICOLOGY

Upcoming Workshop: Review of Advances Made to the IRIS Process

A committee of the National Academies of Sciences, Engineering, and Medicine will hold a workshop on **February 1-2, 2018, in Washington, DC,** to review advances made to the Integrated Risk Information System (IRIS). At the request of the US Environmental Protection Agency (EPA), this committee will assess changes that have been implemented (or plan to be implemented) by EPA in response to recommendations made in previous National Academies reports, such as *Review of EPA's Integrated Risk Information System (IRIS) Process* and *Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde.* This public workshop will serve as a venue for EPA to present its changes to the IRIS program and to provide an opportunity for stakeholder input on the changes to the program. The committee will base its assessment on information received at this workshop. Registration is required to attend.
