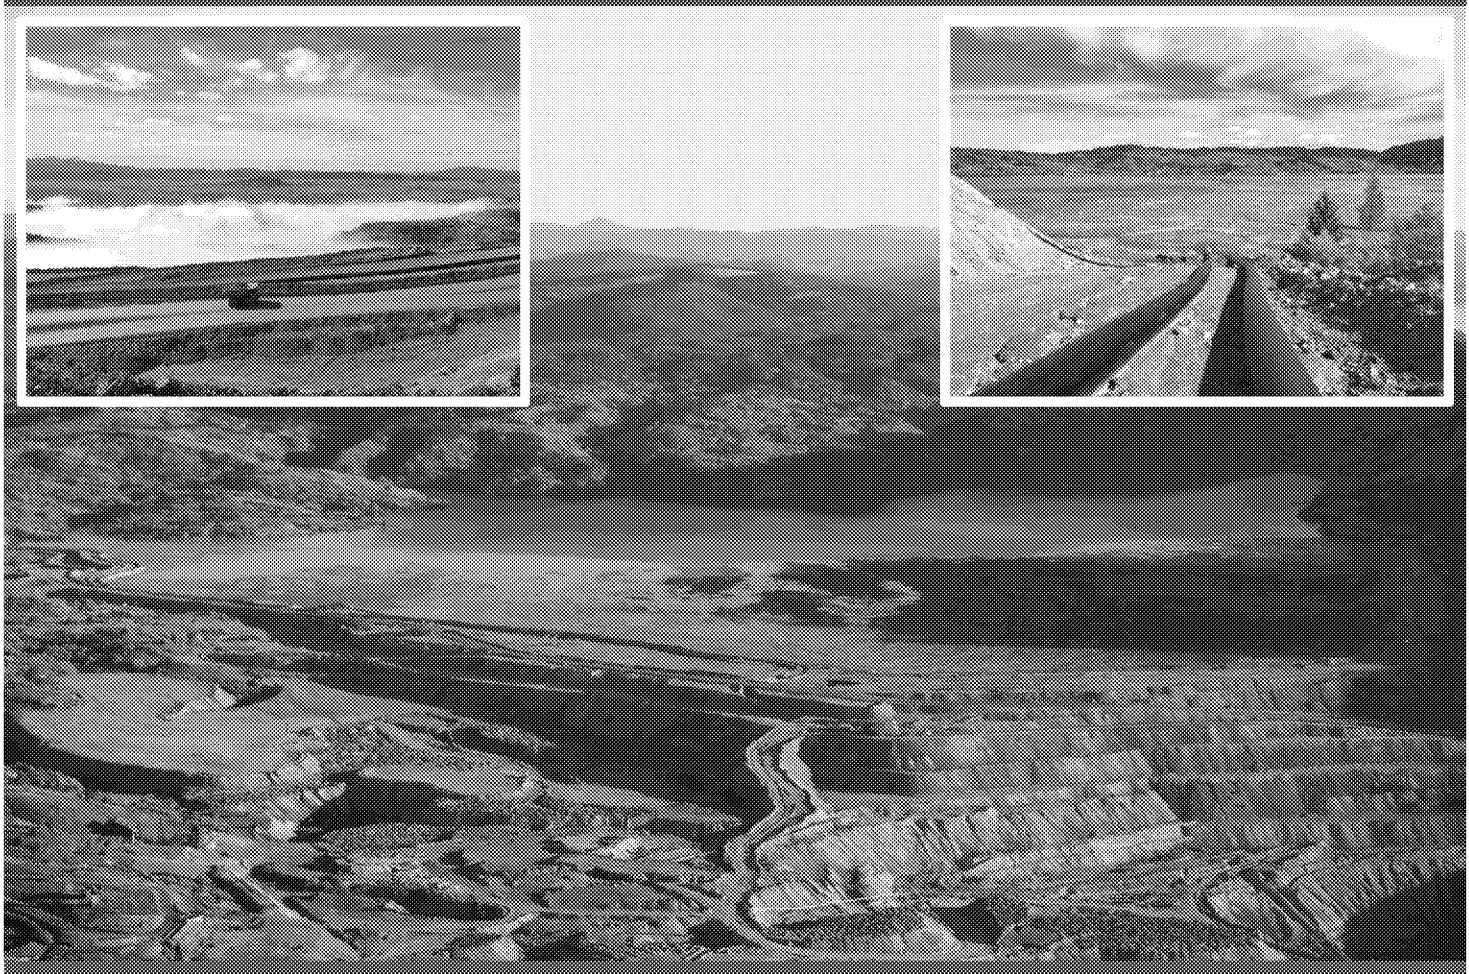
MontanaTech Restoration Seminar

Planning for the future of the YDTI

Speakers will describe the regulatory process that is underway to gain approval for continued use of the Yankee Doodle Tailings Impoundment (YDTI) and progressive changes to the development and monitoring protocols for the impoundment that have been implemented in support of its continued use.



Knight Piésold Ltd. (KP) provides engineering support to Montana Resources related to the continued operation of the YDTI. Ken Brouwer, P.E., is the Engineer of Record for the YDTI and Daniel Fontaine, P.E., is the Specialist Geotechnical Engineer responsible for the project.

DANIEL FONTAINE AND KEN BROUWER

Knight Piésold Ltd.

Time: Wednesday, April 17, 2019 4:00-4:50 pm
