Hi Dr. Lein,

The abstract that we submitted for the Developmental Neurotoxicology Society annual meeting (see below) was accepted as an oral presentation. I've prepared some slides, which are attached here for your review. I will be entering the presentation into EPA clearance shortly, but please let me know if you have any modifications or edits to include. EPA review generally takes several weeks, so you have some time to make revisions. I anticipate that slides 12-13 will be changing as we get the revised files from you and Carrie for our ongoing development of the neurotoxicology study quality criteria.

Please let me know if you have any questions or concerns!

Thanks,
Laura

Laura Carlson

Hi Laura,

Well-written abstract! Thank you for including me.

I had a few minor revisions, indicated in the attached using track changes.

Best,

Pam

Subject: Abstract for Review

Hi Dr. Lein,

I am preparing an abstract for the annual Developmental Neurotoxicology Meeting , abstracts are due Feb 28. I am hoping to present a poster relating to some of the activities of the IRIS PCB Assessment. In particular, I am summarizing our workflow in narrowing the literature down for the PCB neurotoxicology studies in preparation for systematic reviews. I wanted to include you as a co-author. Please let me know if you have any changes to the abstract by this Friday, Feb 16. I apologize for the quick turnaround time, but EPA clearance of abstracts takes several weeks. I know you have a very full schedule, and you can still send comments after Feb 16, as the document will still be under review, so there is some flexibility. If you would also prefer not to be included, let me know.

Thanks,

Laura
