Dear Dr. Snow,

I hope you are doing well. First of all, I would like to introduce myself. My name is Esra Mutlu and I am with US EPA CCTE, Research planing & Implementation Staff. I am a chemist and board certified toxicologist. I was recently assigned as Project manager for AltEn related research (and CRADA between UNL and EPA). I am very excited to help coordinate research efforts for this project.
We have been meeting periodically go over action items and identify our next steps. Following our meeting this morning, we wanted to reach out to you and schedule a meeting to discuss a sampling plan (e.g., sample collection, extraction, how many samples, how many rounds etc.). I have created a table below to show the availability of our team (Elin, Amanda, Angela, Laura, and myself) in EST. Please let me know if any of the time slots would work for you. I am happy to look into other dates/times if you prefer. Please let me know if you have any questions.
Regards,
Esra
