GENERAL PUBLIC/STAKEHOLDERS WITHOUT INVITATION

- EPA appreciates your interest in this important issue and values your input.
- EPA is convening this leadership summit to coordinate with our state and federal partners and national organizations to identify the most critical needs they have in addressing PFAS contamination and to identify the tools we can provide them to better protect public health.
- Because space will be limited at the summit, EPA has limited the invitation to federal partners, states, territories, tribes and representatives from national organizations.
- EPA, however, will be posting relevant meeting materials online as they become available.
- We appreciate your thoughts and suggestions on how EPA can best help states and communities facing this issue.
- We will consider your organization's interest as we plan our next steps.
- To provide your thoughts or for follow up questions, please email: safewater@epa.gov
