SUBJECT: NVF Site; Unilateral Order Telecon with Ed Bender of PA DER Bureau of Dams & Waterways

FROM: Harry T. Dow, Environmental Engineer

TO: CERCLA Removal Enforcement Section File

6/22/88

I called Ed Bender of PA DER's Bureau of Dams & Waterways and notified him of EPA interest in the site. I asked him if he could expedite the processing of the exemption for the stream encroachment permit. He said he would get to it next Tues 6/28/88 if he received it by then and doesn't foresee any problems if the submittal is complete.
