Subject: Bristol Bay Assessment - Path Forward to our Final Draft

Team:

Based upon yesterday's technical call, it appears that the pieces are coming together and that we are well on our way to producing a final draft of the Bristol Bay Assessment. Thank you all for your hard efforts. Those efforts are reflected in the quality of our assessment we are producing.

As we move forward to this next draft, it is vital that we make sure we are communicating with each other. If you have the lead for a section of the report and need information, materials, words, etc., from another member of the team, make sure you contact that person and let them know that you are dependent upon them. Similarly, if you are working on some aspect of the assessment with the intent of having what you are doing included in a specific section, reach out to the lead for the section and let them know what is coming. We cannot afford to wait until the last week to have all the pieces come together. Be proactive, and the miracle will happen.

Thanks, and as always, let me know if you have encountered a roadblock, stumbling block, or writers block. We're all in this together.

Jeff
