Chris – per our conversation earlier, here are the comments from the career group working on Pebble. I talked with our team earlier this afternoon and they think we can address most of the comments. I've asked the team to address and respond to all the comments we agree with and prepare a marked up version that shows you what we addressed as well as any comments we don't fully address. We will also create a clean version that you can share with the principals on Friday. Our goal is to have as many comments / suggested revisions as possible addressed by Friday. Patty / Molly and others will be working on this tomorrow so please let us know if you have any questions. Thanks.

Andrew

Hi R10 team – here's the Pebble letter with the OFA requested editorial changes with agreement from OW/OGC staff. We have marked all comments as resolved except for a few we are recommending that R10 consider for framing/responding to. If the edit changes the comment or isn't consistent with the FEIS, we are OK with you determining that it isn't needed.

Ex. 6 Personal Privacy (PP) please work with Marthea at NCD to resolve any outstanding questions on this.

Thanks for your patience on this one.

Cindy

Cindy

As discussed earlier today, OGC staff and OWOW have completed their review of the draft letter you shared on Monday. We think all of the issues have been resolved based on the various edits provided in the attached redline. There are a few places where we defer to R10 on how best to frame some of the revisions.

If you have any questions before you share with R10, please let us know.

Thanks, Palmer
