Re: Government 2 Government Meeting

Fr: Luki Akelkok Sr.
Ekwok Village Council (EVC)
President

To Dennis Mclerran

In Summary Dennis my name is Luki Akelkok Sr. chief of the Ekwok Village Council I am 100% Aleut I have lived on the Nushagak River all my life, I am in my 70's now and in good health.

The reason why I am contacting you is that my Tribe and surrounding Tribes would like you to come and visit the Nushagak River to see the people who live here. We invite you to a two day visit, we will be having surrounding tribes visiting, New Stuyahok, Koliganek, Portage Creek, Nondalton, Dillingham, Clarks Point, Aleknagek, Togiak Levelock, Kokonok and several other tribes and regional corporations. Our invitation is for you Dennis to come see us, meet us, and see how and where we live.

We will have a day session at the school welcoming and meeting you along with addressing the EPA Laws and Regulations issues before the Native Communities. Then we would like to take you to the Koktuli River to see the salmon spawning in the proposed mining district for the pebble project. I know that you are a busy person but we extend a hand to you as we would hope you to us. My administrator has talked to your assistant Jim Woods. If you're inclined the invitation is to him also and other staffers if your so inclined.

I believe we have something very special here that no one else in the world has. If you don't come and see, smell and taste I don't believe EPA can make any rational decisions concerning the Bristol Bay Tribes. I hope you except my outstretched hand. The last two weeks of July or the first two of August. You can pick the days; you will need 4 days total! 1 day to come, 2 days stay and then one to get out. Please contact my administrator Richard King. I look forward to your reply
