Subject: FW: Rosemont Copper Mine - RE: Please deny the CWA permit for Rosemont Mine

Hi Rich,

How do we respond to these emails?

E.

Elizabeth, is there a public comment period coming up? Will you respond to Ms. Holmes or would you prefer that we let her know that her comments have been forward to program staff?
Please advise how we can be helpful now and for future public emails.
Our shared email box is R9.info@epa.gov

Thanks and thanks Paul,
Deborra

Hi Deborra,

Sam and Elizabeth are POCs.

Thanks,
Paul

Hi Paul, do you know who the current point of contact is for Rosemont Copper Mine?
Is it Elizabeth Goldmann?

Thanks,

Deborra

Your request or comment:
Please deny the permit for Rosemont Mine and/or veto the Army Corps of Engineers approval.

The permit, under the federal Clean Water Act, would give Toronto-based Hudbay Minerals Inc. the right to dredge and fill streams and washes near the mine site as part of the open-pit copper mine's construction.

There have been 12 years of conflicts over the proposed mine for good reason.
Look at this landscape - it will never come back if you allow this to go forward. You have opposed the mine almost from the start, rightfully so, and now you need to carry that opposition as far as vetoing an Army Corps permit.

Building this mine on National Forest land is unimaginable. This land should be protected for wildlife and for posterity. If you approve this, it would be the last of numerous permits the mine needs to start construction. The U.S. Forest Service abrogated its responsibility by approving the mine to be built on Coronado National Forest land.

Please deny this permit and prevent the destruction of this National Forest land.
