Hi Liz,

I searched the SAP archives, and the first SAP meeting on atrazine occurred in 2000. Here is a link: http://archive.epa.gov/scipoly/sap/meetings/web/pdf/finalparta_atz.pdf and http://archive.epa.gov/scipoly/sap/meetings/web/html/062700_mtg.html#agenda

The hazard and dose response document refers to a 1998 EPA memo regarding endocrine perturbations related to thyroid follicular cell carcinogens (EPA 1998). I found this memo, but it is not on mammary tumors. The link above contains other meeting materials.
