Subject: Re: Revision of EHP ms 15-09912-REV
Key Characteristics of Carcinogens_7-3-15_tracked.docx

Dear all

I have revised the paper again in light of all your very helpful comments. Everyone who responded provided substantial and useful edits and I have tried to incorporate as many as possible. Ive also had to make some cuts to the text as many of you added but didn¹t take away and so we are still somewhat over the word limit. Attached then is the final draft that I will upload to EHP on Monday evening unless further changes are suggested.

I am currently working further on the Response to the Reviewers now that Ive made all the edits and will distribute that document again on Monday.

Thanks to everyone in helping me bring this fruition and for your outstanding support throughout.

Happy 4th to my American colleagues and best to all,

Martyn
