Hi,

Can someone send me a word version of this document? I can't edit it or save it as a word document on sharepoint from home. Thanks!

Just a quick follow-up to yesterday's email. For those of you who do not typically use sharepoint or onedrive, when you open up the document it will be in Word Online, which does not have all the same functionality as Word. In the top right of the screen, it will say edit document and will provide a drop down list. If you select 'edit in Word', it will open up the document in a Word file and you should be able to use track changes and add comments as usual. When you click on the little save button in the top left of the screen it will have 2 small green arrows over it indicating it will sync back to the sharepoint site whenever you save.

Any issues or questions, just let me know.

Thank you!
Monique

Subject: draft SAP white paper for review

Hello everyone,

The draft SAP white paper has been uploaded to the SAP sharepoint site (see link below) under the folder 'white paper drafts'. You are receiving this email because you have been identified as a reviewer. Please do not distribute the file or any supporting material from the sharepoint site beyond these reviewers.

Given the quick timeline, we would appreciate it if you could please add any edits/comments to the file on the sharepoint by COB Friday, July 22nd; however, earlier would also be appreciated. I know most of you have access to the site already. If you don't, please let us know and we will add you.

Thank you,

Monique
