Brian here are some of the changes I found. Per our discussion after the meeting, I calculated opacity violations a little differently then EPA. In some cases my opacity violations were higher. I did not change any of yours.

Dave Sampias

Attached is a draft NOV/FOV for Gary Works to be discussed on our call Monday, 6/2. Because it is still draft it is subject to change, and it's not intended for distribution outside of our team.
Talk to you soon,

(See attached file: U.S. Steel NOV FOV 053008.doc)

I think Monday 6/2 at 1:00 central is a good time for us to discuss the US Steel Gary Works NOV.

Please use call in number 866-299-3188, with passcode 3128866073 (then#).

Thanks and talk with you then,

I apologize in advance for the confusion. I sent an earlier email asking if you all were available on Tuesday, 5/27 for a call on US Steel Gary Works. Due to some scheduling conflicts, and the need for us to further polish the NOV, I think it's better for us to delay the call.

Can you please reply with your availability on Monday 6/2 at 1:00 central?

Again, sorry for the change,

IDEM Partners:

Region 5 has a draft NOV for US Steel Gary Works that we hope to send out in the next week or so. We'd like to discuss it with you, and think a conference call on Tuesday 5/27 at 1:00 central would be best. Are you available at that time?

Please let me know, thanks,

Brian Dickens
