Ed,

Attached are a few suggested changes to the draft SOW you sent yesterday (I accepted the changed in the draft you sent so this shows only the changes I've made.)

Also, as requested, below is suggested alternative language for identification of hazardous substances for jurisdictional purposes for use in paragraph 10 of the draft AOC instead of the current sentence referring to sample analyses:

"The discharge included xylene, which is a hazardous substance, and refined petroleum products."

Please let me know if you would like to discuss either the SOW or the AOC language proposal.

These draft AOC and SOW remain subject to further review and comment by our client.

Best regards,

Aileen

Hi Aileen,

Based on our discussion, I'm sending you the latest draft SOW. Changes made from the one I sent on Saturday include language added (and deleted) in Items 6 and 7. Although I've shared this with EPA management, they have not yet approved it. I also haven't shared it yet with TCEQ counsel, but I'll send them a copy shortly.

Thanks,
