Thanks for letting me know right away. Sounds like a great trip.

It has taken some time to get around to having the meeting and this was the only date that worked between now and November 15. I wanted to make sure that people locked it in. If we don't have it on the 15th I fear we will be looking into the New Year.

Hopefully Lora can make it.

Doug, I cannot make that time. I will be in Australia from 9-30 Nov. Lora is out until next week too, so I cannot coordinate her availability until she returns.

VR,
Richard

Subject: [Non-DoD Source] NWIRP/Grumman Groundwater Coordination Meeting-Please hold November 15-EPA NYC Office

Hi

Last Thursday NYSDEC and NYSDOH met to discuss the Navy white paper on options for discharge of treated groundwater (attached); we are now in a position to schedule a coordination meeting. NYSDOH will participate in the meeting.

EPA, NYSDOH and NYSDEC have compared calendars and are available to meet on November 15.

We are hoping that you all can make yourself available to meet at the EPA offices in NYC on November 15 from 10:30-1:30. As you might expect calendars are quite busy and will only get worse the week after November 15 and won't improve until after the holidays.

An agenda, outlook meeting invite and room location will be provided within the next two weeks. If you have any suggestions for agenda topics please send them to Jim and me.

Hope you all will be able to make it.

Thanks

Doug

Subject: White paper on options for discharge of treated groundwater

Good Afternoon,
Attach is the white paper that was prepared in order to evaluate options for maximizing the use of Bethpage Water District (BWD) Well 6-2 to serve as both a public water supply and remediation well. This paper also evaluates potential options for the use or disposal of treated water from the sustained operation of BWD Well 6-2. R/
