Lorenzo:

I now have a USGS call at 2:00.

Let me know what may work.

Thanks
Jason

Hello,
If you don't mind, after lunch would work best for me. Would (1)pm be acceptable?

Mark Comerford

Lorenzo,

Mark Comerford here. Would Wednesday work for you? Time of day is yours to choose, whatever you both can make.

Mark

Lorenzo:

I would also be happy to participate in a conference call to discuss this project if you would like?

Thanks

Jason

Hi Mark,

The Navy and the Northrop-Grumman have been implementing the investigations and remediation, both conducted to date and ongoing, per the requirements of the NYSDEC's Record of Decision as well as Consent Orders (with Northrop-Grumman). As such, all the work has been done under NYSDEC's oversight as well as enforcement consent orders.

I want to ask if I could speak to you just to make sure that I answer all your question. I'd be more than happy to call you.

Thank you.

Lorenzo

Lorenzo,

How was the fox put in charge of investigating the hen house?

The Navy and Grumann were partners and co-conspirators in polluting the aquifers, and now the NAVY is the agency conducting the investigation?????

WHO decided this?

Mark Comerford

Hi Mr. Comerford,

Your inquiry regarding the 3-1-17 Naval Weapons Industrial Reserve Plant (NWIRP or Navy)-Northrop Grumman Site in Bethpage, NY has been forwarded to me for reply. I am EPA Remedial Project Manager for the NWIRP-Northrop Grumman Site. The NWIRP-Northrop Grumman Site is a RCRA storage facility permitted under the federal Resource Conservation and Recovery Act (RCRA), although RCRA waste is no longer stored here. The New York State Department of Environmental Conservation's (NYSDEC) has the lead role in implementing the remediation at the site. Both the Navy and Northrop Grumman are potentially responsible parties (PRPs). EPA has primarily played a support role to NYSDEC.

I would like direct you to the following Navy and EPA websites for the status of remediation activities as well as investigation activities that have been conducted at the the NWIRP-Northrop Grumman Site.

https://www.navfac.navy.mil/products_and_services/ev/products_and_services/env_restoration/installation_map/navfac_atlantic/midlant/nwirp_bethpage.html

https://www.epa.gov/hwcorrectiveactionsites/hazardous-waste-cleanup-naval-weapons-industrial-reserve-plant-and-northrop

Should you have any futher question upon visitng the above two websites, please do contact me.

Lorenzo

Sirs,

I am interested in the status of the Superfund investigation into the Grumann chemical/jet fuel contamination of their old headquarters in Bethpage, New York.

I have read that there is now an underground "plume" of contamination moving thru the aquifers advancing towards the Atlantic Ocean.

I would that ask that you would forward any current information to the below address(s).

Thank you,

Mark Comerford
