Hi Loren,

I just wanted to let you know that due to a request from the public, EPA has extended the closing date for the OR 2012 303(d) list comment period until April 3, 2017. The website (https://www.epa.gov/tmdl/partial-approvalpartial-disapproval-oregon-2012-303d-list) has been updated to reflect this change. Thank you.

Jill

Hi Loren,

EPA is required to seek public comment on any additions we make to Category 5, so that would include the additions and any delistings or corrections that resulted in a water being added to Category 5, so that is why the solicitation is phrased the way it is. However, we would be happy to receive any comments that you might have for us. If you believe we missed adding a water that we should have, question the methodology we used to come to a decision about a water, or feel we've made any other type of error, please let us know that. Any and all comments can be submitted to me following the instructions in the solicitation, and just need to be received by February 6, 2017. All comments will be considered and we will publish a response to each comment when we take our final action, whether or not any changes resulted from the comment. Thank you for your interest in Oregon's waters, and please let me know if you have any other questions.

Subject: OR 2012 Comment Period

Hello Jill,

I'd like to clarify the comment process for EPA's review of Oregon's 2012 303d list. Is EPA seeking or accepting comments *only on the proposed additions* to the list? Or is your team accepting comments on EPA's *entire* review, including additions, disapprovals, methodology, etc.?

I just want to confirm, as the website was not super clear on that aspect.

Thanks for your help,
Loren
