Welcome

Event's Purpose

Our (C.A.G.) was honored to have received a National Pew Mini-Grant from National Center for Healthy Housing [NCHH] and the below listed sponsors for our "LUNCH and LEARN about LEAD" Community Event.

Today's Event was organized for the residents of East Chicago and surrounding communities who want to LEARN about the DANGERS of LEAD including the short and long term Health Risk Effects of LEAD.

The Purpose of today's Community Event is to Educate the public in attendance about Lead Poisoning Prevention and Solutions. We will also include Discussions on Government Roles and our Roles to better prevent further exposures to LEAD such as from Industries, Environment [Air, Soil, Water], Old Homes, Paint, etc.,.. We will also work on effective Response and Communication Methods that will benefit the Community.

We appreciate the presence of the following agencies that too have joined us today in our efforts of LEAD Education and Awareness for our Community by having informational booths on site. Let us thank, Indiana State University [ISU], HealthLinc, Indiana Legal Aid and U.S. Environmental Protection Agency [E.P.A.] Region V.

We look forward to you benefitting much more than expected from our "LUNCH and LEARN about LEAD" Community Event today.

Happy Thanksgiving to you and yours,
East Chicago Calumet Coalition
