Hi Keith,

David has reviewed the justification for requesting an up-tiering and has given his approval for moving forward. Attached is the justification which was developed by both OC and OCE.

Please let us know if you have any questions.

Thanks.

Rob

Thank you Terri! I also encourage OC and OCE to coordinate on this to bolster our discussion about justification for increased tier level.

Wanda, thank you for this information.

I don't understand the rationale for both not re-tiering a rule from 2007, and for keeping a rule a Tier 3 so that it can proceed on a certain predetermined schedule. Whose schedule? The Rule itself should dictate the Tier, regardless of the need to get a rule out the door on some predetermined schedule.

Will OAR answer that question?

I am happy to discuss –

Keith

Good Day RSC,

OAR has received questions re: SAN 4908 – NESHAP Amendment: General Provisions for Once In Always In. This is a re-proposal of the 2007 proposal. OAR staff has been working w/the workgroup since April of this year. When work was re-started on this action, the need to keep this action as a tier 3 in order to keep on schedule was discussed. However, OAR agreed to provide the workgroup information and input, including review of the draft proposal prior to moving to OMB. The kick-off meeting was on 4/12/18 and subsequent meetings were on 5/10/18 and 6/14/18. Our next meeting is scheduled for 08/09/18. In addition to the monthly meetings with the ADP WG, we have had multiple focused meetings between OAQPS, OGC, and OECA. (Our meetings have included from OECA- Sara Ayres and Theresa Dykes. Sara has been working with us on the compliance aspects of our proposal while Terri has been working with us on the enforcement aspects.)

If there are questions or concerns, please email to me. Thank you!

Wanda

Primary POC: Elineth Torres (OAR/OAQPS/SPPD/PSG): 919-541-4347

Secondary POC: Debra Dalcher (OAR/OAQPS): 919-541-2443

Internal Abstract:

These amendments would address when a major source can become an area source, and, thus, become not subject to national emission standards for hazardous air pollutants (NESHAP) for major sources under Clean Air Act (CAA) section 112. The amendments will implement the EPA's plain language reading of the CAA section 112 definitions of "major" and "area" sources as discussed in the January 2018 William Wehrum memorandum titled "Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act." (See notice in 83 FR 5543, February 8, 2018.) This action will provide an opportunity for interested persons to provide comment on many of the same issues covered in the 2007 NESHAP: General Provision Amendments (72 FR 69, January 3, 2007).
