So instead of our RPM supports the idea of the tour, should I say Superfund division?

Yes and yes. I am copying Becky, my supervisor, on this. I want to make sure that my management is not behind Susan on these things.

Michael – we're imaging this will be closed press, yes?

Also, would you say it's accurate that you support such a tour so that that you can present factual information to the Congressional representatives in an non-public forum.

I'm writing up a note for Susan – to bring her in the loop – before I do any outreach to the Congressional offices. I'm also going to give HQ OCIR a heads up as they have been involved with this site in the past.

Thanks,
Eileen

Eileen,

I will call you about this. Apparently the mayor of Kalamazoo received commitments from Congressman Upton and Senator Levin that they will tour the site.

Hi Doug,
As I believe you're aware, the City of Kalamazoo, MI, is pushing EPA to dig up all the PCB-contaminated wastes at the Allied Landfill, one of the OUs of the Allied Paper/Portage Creek/Kalamazoo River site. According to a recent news article, the mayor was in DC recently and spoke with EPA officials. Do you know who the mayor might have spoken with? We were not aware of this until we saw the news clip (see link below).
Thanks in advance for any info you can provide!
-Becky

Joan and Becky,
According to this article, Mayor Hopewell spoke with EPA officials recently. Have either of you heard about this? Who might he have talked to?
