Carolyn

Attached is the report that we discussed. This details the historical VI sampling activities completed at the site and outlines the proposed ISCO work activities.

Sincerely,

Bradley E. Gentry, LPG

Hi Brad,
Just left you a voice mail.
Please give me a call.
Thanks.
Carolyn

Carolyn/Joe

I am available on the 17th and can participate in a teleconference or site meeting, whichever works best for everyone.

Sincerely,

Bradley E. Gentry, LPG

Carolyn - I don't want to put you guys in a bind but it is looking difficult to get out there. If we could do a teleconference and then follow up with a visit after the 27th, that would be best for me. However, if you feel it is imperative to go out to the site earlier, it looks like I can get out there by noon/early afternoon on the 17th.

If your schedule is that tight, then perhaps we could have a teleconference and then a site visit later.
Carolyn

Working through it right now. The only day would be the 17th but I have to work around meetings in Connecticut on the 16th and Sidney (NY not Australia) on the 18th. It may come down to flying out early on the 17th and meeting late morning or early afternoon. I'll know by tomorrow.

Hi Joe,
We appreciate your flexibility.
Normally, we would provide more lead-time for a meeting, but as you know, this Site is becoming controversial within the community.
Please let us know if you are available the 16th or 17th as soon as you can and we will make travel arrangements at our end.
Many thanks.
Carolyn

Carolyn - I will need to work something out. I'm coming from upstate NY and my schedule is currently filled through the 27th. Let me see if I can move things around. The 18th is definitely out but I'll see if I can somehow work in the 16th or 17th.

Hi Joe and Brad,
Thank you for your offer of information.
I propose a Site visit and meeting in the near-term.
The meeting would include our hydrogeologist, risk assessor and myself.
Are you available July 16 (afternoon), 17, or 18 (morning)? The 17th works out best at our end.
Thanks.
Carolyn

Hi –
Thank you for the spreadsheet, that is quite helpful.
I'm sure that we will be speaking frequently in the near-term.

Subject: Contact Informaiton

Ms. Bury - Per our call, my contact information and the contact information for our consulting engineer on the Franklin, In., program are given below. Please feel free to contact me with any questions. As I am newer to the program, I may need to reach out to our engineers for information. We had recently provided a considerable amount of historical site information to Juan Thomas. If you need this to be resent to your attention, please let us know. I have taken the liberty to include the most recent information that Mr. Thomas requested - a single spreadsheet with historical ground water sampling results.
