To ensure that OMB is aware of any upcoming mission critical impacts and related effects, we have been asked to develop a list of priority impacts to major program activities should the shutdown continue through April 1st. This list should be inclusive of critical life/health/safety/economic/other impacts.

Please help us complete this effort by identifying those high visibility issues that you expect will be most significantly impacted should the shutdown continue through April 1st. The template below should be used when gathering this information, and one submission for each major program office should be provided to Carol Terris (Terris.Carol@epa.gov) and Maria Williams (Williams.Maria@epa.gov) by **3:00 pm on Thursday, January 24th**.

- Program office
- Brief description of major programmatic activity and impact to life/health/safety/economy/etc.
- Date of expected impact on government

Thank you for your immediate attention.
