Dave:

While I have not seen any of the underlying documents upon which the Madison-Kipp Corporation (MKC) is relying upon to support its claim that any releases of PCBs to the environment at the MKC site occurred prior to April 18, 1978, I wanted to bring your attention to the following 1983 CERCLA inspection document from EPA's files that may be relevant to this claim. Please note that I will not be in the office tomorrow. Thank you.
