TOTAL MATERIAL **755,036** **TOTAL MATERIAL** **754,668** NET DROP In W/W (bbls)

Including Barges **837,102** **368**

2nd 80's Tank Farm Material Lined Up to tank: **100-28**

Estimated Water Discharged Since Event

bbls

Incident Water Remaining in 80-34

NONE bbls

Barges Storing Incident Material

Barge Number	Material Contained	Current Location	Size (bbls)	Quantity (bbls)	Transfer / Activity	Current Quantity (bbls)	Original Load Date
K-28177	Non-Haz material	ITC #4			Being unloaded to ITC #8-1 on 5-22-19	8,300	
MSRC 570	Incident Related Material	ITC #8	57,000	49201	Lightered to Web 406 on 5-21-19	20,763	
K-301		ITC 5A Dock	30,000	21000		12,025	
K-29120		ITC 5A Dock	30,000	20605		20,605	04/18/19
Web 406	MSRC 570 Material	SWSY	25,000	0	Material transferred from MSRC	20,741	
						82,434	

Tank	Physical Status Of The Tank	Current Status	% Complete Deconstruction	Start of Deconstruction	Deconstruction Complete	Cleaning Complete	Deconstruction Order
80-1	Tank erect, charred, damage to roof	No Change					9
80-2	Collapsed	No Change					10
80-3	Tank erect, charred, but heavilty damaged	No Change					11
80-4	Tank erect, charred, damage to roof	No Change					8
80-5	Collapsed	No Change					12
80-6	Collapsed	No Change					13
80-7	Half of the tank standing, roof collapsed	Deconstruction In Progress	25%	6/4/2019			5
80-8	Collapsed	No Change					15
80-9	Collapsed	No Change					14
80-10	Erect, fixed roof in tact	Deconstruction Complete	100%	5/31/2019	6/3/2019	06/04/19	4
80-11	Erect, charred, and damage to roof	No Change					6
80-12	Partially Collapsed	No Change					7
80-13	Erect, fixed roof in tact	Deconstruction Complete	100%	26-May-19	5/30/2019	5/31/2019	3
80-14	Collapsed	Deconstruction Complete	100%	19-May-19	24-May-19	25-May-19	2
80-15	Collapsed	Deconstruction Complete	100%	13-May-19	17-May-19	18-May-19	1

Pending Plans and Approvals:

Request to treat 2nd 80's tank farm water through 80-34
Empty Foam Tote Disposal
Incident Material to Southwest Shipyard
Additional material to Delta - Which tanks?

Note: After deconstruction of tank walls, floor will be cleaned but remain in place for staging. Floors will be addressed when remediation begins.

Waste Streams
