Call in number: Ex. 6 Personal Privacy (PP)

This is an internal call to brief R8 management and discuss EPA's response options to North Dakota's latest draft source determination for Coyote Creek Mine/Coyote Station and draft response to comments on the Coyote Station TV permit renewal. We plan to have a call with ND soon with this same group to give them our input.

Attached is EPA's written response to their first request for input on their draft source determination in late 2018, and also the latest draft source determination and draft response to comments received 6/25 requesting EPA input.
