Dorothy: The Stewart Creek site is assigned to Pindy Lall. I am forwarding your email to him also in case the new area might be in the APAR he received for his site.

Pindy: Could you check and see if you have any data on the new VCP site.

Subject: Exide Remediation Questions

Hi Gary,
There is a new VCP (VCP No. 2632) out there for property owned by the city. I was wondering if that included the creek itself because I was under the impression that Stewart Creek was included in the APAR and the IHW Permit as an RFI. I haven't gone through the entire APAR yet but, is the creek (west of the railroad tracks) included in the APAR and/or RFI or does the APAR on include the Exide on-site portion of the creek?
