Importance: High

Rudy,

During our review of the December 2012 POTW permit application for the City of West, pretreatment staff determined that the POTW will receive the pretreatment boilerplate language. The permit has not been issued yet, but we have attached the existing issued permit.

West Fertilizer is not listed in the Tx Mfr Directory. However, both West Fertilizer and Adair Grain, Inc are listed in Central Registry with the same address: 1471 Jerry Mashek Drive. The city's engineer indicated that Adair was not connected to the city's sewer.

Attached are copies of:

- City of West TPDES Permit No. WQ0010544-001
- West Fertilizer Central Registry
- Pretreatment Option 1 Memo
- City of West Permit Review response regarding the TxMfg Directory (See Complete TXMD tab)

Central Registry Info:
West Fertilizer: RN100985407
OWNER/OPERATOR: Adair Grain, Inc. CN603129412
Prior Name History of West Chemical and Fertilizer was West Chemical and Fertilizer

Thanks,

Rebecca L. Villalba, Team Leader
