Subject: RE: Review of TGTI Deepwater Terminal

Maria,
I'm ok with Barbara's comments. This project is at the very early (pre-scoping) stage so the comments seem appropriate and broad enough. Let me know if you need anything else.

Because the formal NEPA scoping process hasn't yet begun, these comments are typically rather general. Therefore, I often wrap up coastal, marine, and wetland comments into the same narrative. If you or your staff do not have time to submit separate comments, just let me know as soon as possible if the ones I've drafted will suffice (see attachment).
