Subject: RE: Been meaning to follow-up

Hi there Paul.
Yeah, sorry about that. The technology is so helpful a times and not at others.
We presented all of the options in the presentation. There is still no official decision moving forward. There are other options that we are discussing in addition to these as well.
I will keep you in the loop on the next meeting once we have a path forward.

Subject: Been meaning to follow-up

Marisa,

Hope you are doing well. I've been meaning to follow-up on any outcome of the meeting on the 2nd. Unfortunately for some reason the call-in details you had provided did not allow me to connect into the meeting. Any specific decisions/outcomes made at the meeting? Thanks!

I will plan to send you the slide deck before I leave in the morning via email. That way if the technology doesn't work we are still covered.

Personal Matters / Ex. 6 I didn't know if you still were interest in any type of WebEx option. If not, just pass along a conference line and material you plan to reference. Thanks!

Hi Paul,
Any chance you will be able to make the meeting tomorrow?
I think Steve Walls is planning to drive down.
Thanks,
Marisa
