Subject: Re: 6WQ RA UPDATE REPORT FOR WEEK OF October 22, 2018

You should include our updates on drinking water sampling for lead at tribal schools and child care facilities, and the Craft-Turney Water System update in Jacksonville, TX

6WQ RA UPDATE REPORT FOR WEEK OF October 22, 2018

Annual Surface Water Program Managers Meeting: The Region 6- Water Division, NPDES Permits and TMDLs and Ecosystems Branches, is holding its annual Program Managers Meeting on Oct 23-25, 2018, at the Homewood Suites Downtown Dallas. The conference is engaging federal and state water quality managers including Texas, Oklahoma, Louisiana, Arkansas, and New Mexico permitting, standards, monitoring, assessment, and non-point source to discuss and address water quality concerns within the Region. Speakers will present successes and challenges on topics including nutrients, minerals, and bacteria. We are honored to have Deborah Nagle, Acting Director, EPA-HQ, Office of Science and Technology, as a keynote speaker on Tuesday, Oct. 23, 2018.
Denise Hamilton, 214-665-2775;

Request for meeting with EPA on 3 new permit Applications: On October 16th, Cheniere Energy, Incorporated requested to meet with EPA on the 3 draft permits (i.e., Midship Pipeline Project, Midship Iron Horse Meter Station and Grady Meter Station and Lateral Project), which are currently being public noticed. EPA will meet with the company representatives on November 14, 2018 to discuss biomonitoring requirements and source water issues. EPA also agreed to extend the public comment period until November 20, 2018. These are new permit applications older than 180 days and were scheduled to be completed by the Administrator's due date of December 31, 2018. Due to the request by the applicant, these draft permits will likely NOT be effective by December 31, 2018.
Brent Larsen, 214-665-7523;

New Mexico Nutrient Technical Forum: The NPDES and Permits Branch Concentrated Animal Feeding Operations (CAFO) coordinator, William Cooper, in conjunction with EPA-HQ, EPA-R6, NMED, USDA-NRCS, and NM Consultants, developed and held a nutrient management workshop in Albuquerque, New Mexico, from October 17-18. The meeting focus was assistance to interested parties, particulary New Mexico CAFO operators, regarding nutrient management planning.
Williamf Cooper, 214-665-6443;

GRAND RIVER DAM AUTHORITY – CHOUTEAU (OK0035149, ID # I-46000340) – State Permit Review: The Grand River Dam Authority (GRDA) operates a two-unit, 1010-megawatt coal and gas-fired steam electric generating station under SIC Code 4911, at a site three miles east of Chouteau, Oklahoma. Upon further review of the proposed permit, EPA will determine the appropriate response for issuance to ODEQ no later than October 25, 2018.
Rudy Molina, 214-665-6731;
