Craft-Turney Water Supply issues 'do not use' order to customers

Sue Necessary

JACKSONVILLE, Texas (KETK) - The Craft-Turney Water Supply has issued a "do not use" notice to customers on its water system.

"Due to conditions which have occurred recently in the water system, the Texas Commission on Environmental Quality has instructed Craft-Turney Water Supply to issue a do not use the water order for the area as described below," the system said in a press release.

The service area affected includes the south side of Loop 456 on the north boundary, County Roads 1615 and 1616 (including US 69 South) on the west boundary, State Highway 204 on the east boundary, and FM 768 on the south boundary.

The no-use order includes:

- no human or animal consumption
- no bathing
- no cooking
- no irrigating, etc. until further notice.

The press release gave no explanation of the order, but said that "water sampling is being conducted and further information will be provided after sampling results are evaluated."

Bottled water is available for pick for affected customers at the Craft Turney WSC office, located at 505 SE Loop 456, in Jacksonville.

Affected customers can contact the Craft Turney WSC Office at 903-586-9301 for more information.
