I don't know since OAQPS is the one that put this in motion, I think…I'll try and find out.

Subject: Pojoaque Pueblo - Monarch Facility Permit

Hi everyone,

For our call later this afternoon I asked for some input from Pojoaque Pueblo to provide agenda items for our call. Please see the agenda being suggested. If there are any other thoughts or suggestions for the agenda please let us know.

1. Introductions
2. Pueblo of Pojoaque -
   a. Interest in the facility
   b. Technical analysis of permit application and proposed permit
   c. Submission of public comments and extension of deadline for comments
   d. Regulatory oversight and enforcement of permit
3. EPA Region 6 permitting process
4. EPA OAQPS - role in permitting process

Thank you,

I'm working on getting the right people together but 3:00 MST is probably too late for us. Do you have a copy of the draft permit?

Yes, absolutely, it would be great to have OAQPS on the call. Attached is an email we received from EPA with a link to the air quality permit documents. Also attached is some research we did a couple years ago when we first found out about the incinerator as pyrolysis is not a common waste incinerator technology and the individuals behind this technology are from England. They partnered with an Albuquerque company and located the incinerator on Pueblo lands thinking they could avoid regulation. The patent document is not theirs, just something I found that explains the technology.

I am available for a call on Friday, November 22nd any time after 11:00 a.m. Tell me what time works for you and we will send you a conference call-in number.

Thank you very much - Leslie

Hi Leslie and Adam,

Angelique did some research on-line and found the attached documents on the facility that might be helpful to review. Also, Angelique isn't very familiar with medical incinerator facilities, so I think it would be helpful for us to invite experts from EPA headquarters (staff from Laura McKelvey's office at OAQPS) to help answer questions about the facility. Would you guys be okay with having them on the call?

Thanks

Hi all - apologies for the delay in replying. I'm in meetings this morning but will send you the information from EPA this afternoon and set up a call. It's an Title V NSPS permit for a pyrolysis system medical waste incinerator located at Nambe Pueblo. We are looking for assistance in reviewing the permit application and proposed permit to determine if EPA is requiring the correct pollution controls and full compliance with the CAA requirements.

Thank you - Leslie

Hi Adam,

Angelique typically does her emission inventory work remotely. If it would be helpful we could set-up a conference call with your department to discuss the project you need help with. Once we have the call and a better understanding of what you need, we'll be able to determine how much we can help or perhaps refer you to others.

How does that sound?

Hi Adam,

Good to hear from you. Hope all is well out at Pojoaque these days. I'm copying Angelique Luedeker here at ITEP. She's our emissions inventory specialist and should be able to help you.

Angelique: please see Adam's email below.

Subject: Tribal Air Quality Assistance

Mehrdad, I was wondering if you could point me in the right direction in regards to having an Air Quality Specialist assist The Pueblo of Pojoaque review an emission report for a project that is located near our tribal lands. Please let me know if you can help. In the past Sarah Kelly had assisted our tribe, do you know if she is still Working with NAU?
