Subject: Nambe Pueblo Letter - Tribal Council Meeting follow-up

Governor Perez,

I hope you are doing well. Please find attached the letter you requested letting you know of MWT's intentions of operations going forward. I would like to sit down with you and discuss a proposal for expanding our services to our clients by offering the destruction of (limited) Hazardous Waste at the facility – nothing crazy, basically the same thing we are doing now but in larger quantities. This would more than offset the loss of the Pathology and Animal Waste streams and we would be willing to look at our financial relationship with Nambe Pueblo in an effort to increase the financial return to The Pueblo. I have reviewed the information I have (which I am sure is limited) and it appears that The Pueblo could allow the destruction of Hazardous Waste if all the laws and regulations are followed closely. I have a business plan I would like to share with you and would welcome the opportunity. I also want to discuss the Tribal Council Resolution and make sure we understand the content and its intended results. Please let me know of your availability after the Thanksgiving holidays.

Thank you,

Monarch Waste Technologies
