RECORD OF COMMUNICATION	X	PHONE CALL		CONFERENCE	DATE: 2/5/21
	X	DISCUSSION		OTHER	TIME: 3:00 p.m.
TO: Verataur LLC, 526 SE Court Cir, Crowley, LA, 70526-4300 FROM: Stephen Angle					
SUBJECT: BioErase Wipes					

SUMMARY:

On February 5, 2021, Mr. Josh Savant and Mr. Gene Garber called into a conference line with Lawrence Pittman and I at 3pm. I explained that their products, BioErase wipes and spray, was claiming a 25(b) minimum risk pesticide exemption under FIFRA and that human health claims on the label disqualified the product from this exemption. BioErase products were found for sale on Maverick International and H-E-B websites. Mr. Garber informed us that Verataur is a supplemental distributor for a product called Purgo, manufactured by Environmental Manufacturing Solutions in Melbourne, Florida. Mr. Garber further explained that his company had taken marketing language from Environmental Manufacturing Solutions.

CONCLUSION:

Advisory letters will be issued to Verataur, Maverick International, and H-E-B, with possible SSUROs to follow. Information on Environmental Manufacturing Solutions will be referred to Region 4.
