Griff,
Can you please call Paul and see if he signs these?

Thanks

Hi Steve,
Toeroak (flyover contractor)'s QAPP is requesting a signature for R6's QA Manager (page 5). Who should sign this? Paul James? The 2020 QAPP was signed by Flora Greene (Will LaBombard's predecessor for the task order). I have attached the 2022 QAPP to pass along to whoever should sign this.
Griff

I wonder why Flora signed last year. In any case, I believe Paul James is the R6 QA Manager. If not, please check with Steve.

Hi Darrin,
Per our discussion last week on the 2020 QAPP, I asked who Flora Greene and you said that was Will's predecessor. I assumed that Will would need to sign off on the 2022 QAPP, but he is stating otherwise. Below is a screenshot of the **2022 QAPP**, for R6's QA Manager on page 5 of attached file. Who should sign this? You? Aimee?

3. **Environmental Protection Agency:**

a. Griffith Brown, Task Order Contracting Officer's Representative (TOCOR)

Hi Will,
Ah okay. The 2020 flyover QAPP had Flora Greene (your predecessor) and you would need to sign off on it. Let me talk to Darrin.
Thanks,
Griff

Hey Griff,

That last signature line is for the R6 QA rep, not for me.

Importance: High

Hi Will,
I have reviewed Toeroek's QAPP and have found it sufficient. Darrin also approved of their QAPP because it is very similar to the previous year. Can you go ahead and sign this on page 3 and return it back to me ASAP, please? I am logging off in the next 20 minutes for a wedding and need to get this sent over to them.

Thanks,
Griff

Hi Griff,

Attached is the Final UFP-QAPP for the 2022 IR flyover survey. We corrected the EPA Region 6 QA Manager title on page 3 and added Toeroek signatures.

Thank you,

Kevin

[Notice: External Email]

Kevin,
All the QAPP worksheets and technical info looks great. My only comment is on the signature page 3, specifically #3b should be "EPA Region 6 Quality Assurance Manager" and not Region 9 (see image below). Other than that, it is ready for signature.
Thanks,
Griff

Subject: UFP-QAPP for IR Flyover

Griff,

Attached is the Draft Optimized UFP-QAPP for the 2022 IR flyover survey of areas in Texas and New Mexico (task order 68HE0622F0001). The UFP-QAPP consists of designated worksheets and addresses technical data collection activities required for the project. The template for this UFP-QAPP is one we have used for past IR flyover projects. Page 3 is the signature page. We will sign the document at your direction.

Please contact me or Brad with any comments or questions.

Thank you,

Kevin
