H4U Pond Remediation Project Amended Facility Work Plan
Healdton, Oklahoma

Dear Mr. Rudolph,

This correspondence will serve to amend Citation Oil & Gas Corp's. Facility Work Plan for the West Pond Area Remediation Project.

Enclosed please find two supplemental drawings dated April 12, 2007. The first drawing (Attachment 1) provides construction details regarding the interceptor trench installed to collect and dispose of fluids captured from the four seeps identified in our earlier correspondence of March 12, 2007.

As per your request, the second drawing (Attachment 2) provides accurate GPS coordinates for each of the four seeps which enter the interceptor trench.

Should you have any additional questions or requests regarding this project, please feel free to contact me at 281-517-7516.

Sincerely,

Paul Lankford
