Hi Matt and Elizabeth,

Here is a status update of the plans listed:

All plans listed below are affected by Bahr v. EPA decision re: contingency measures

- Coachella 1997 ozone – attainment plan is approved – only remaining element in the backlog is the Contingency Measure (affected by Bahr decision) – Ex. 5 Deliberative Process (DP)
- Coachella 2008 ozone – attainment plan action is drafted and in review by ORC. South Coast submitted a commitment letter re: contingency measure to allow conditional approval – Ex. 5 Deliberative Process (DP)
- SacMetro 2008 ozone – attainment plan under review – we have been working with the districts and CARB on a commitment letter to address contingency measure element – Ex. 5 Deliberative Process (DP)
- Western Nevada 2008 ozone – attainment plan under review – we have not yet started conversations in earnest on commitment letter to address contingency measure element – Ex. 5 Deliberative Process (DP)
- Ventura County 1997 ozone – area has a clean data determination (and attained by attainment date) – CA recently (this month) withdrew the remaining elements of this plan – moot

- Ventura 2008 ozone – we have a deadline lawsuit on this plan action – Ex. 5 Deliberative Process (DP) Ex. 5 Deliberative Process (DP) – District has submitted a commitment letter to address contingency measure

Please let me know if you need more information. Thanks!
