Scott McPhilliany — EPA

TSCA Inventory (4/30/80)

EPA Region II Review with Corporate ~~EPA~~ UCC in NY

Dr Haywood — Prod Safty

Jim Rouse — Lawyer

Dr Colwell — TSCA Coordinator

~~Mcl~~ Rewi.

Review UCC Data Sistersville

~~Phenochlorosilane~~ manufactured or

PCS used in Product or as a reactant

→ or manufactured

STATEMENT When PCS is (used in manuf. of products) some PCB's can be generated.

McPhil — Review of Region II report

NY Corporate States : not manufactured.

stoped use 1975

EPA Questions } 1978 1979

NOTE: I dont know is UCC is aware of question?

McPhil asks: (A) Has UCC sist used PCS as reactants in products?

1) Is Prod manu (PCS)

2) When was discontinued

MPM000642

EPA003633

(B) Do we still use PCS

(C) When PCS used.

(1) What steps were used to prevent contamination of products?

(2) What steps were taken to prevent contamination of equipment.

(3) What steps were taken to control contamination of wastes.

END CONVERSATION

1) I was to check into questions - would get back to him to discuss issue further.

Conversation with RT Kramer 3:30

1) I discussed EPA Call

2) RTK called Cohnell:

4/30/80 Routine TSCA inspection

Prior to 1975 made 3 products R 63, Y 5720, AT134 } used PCS purchased from Dow

RTK to get Cohnell memo. *

MPM000643

EPA003634

Don Voisnet Conversation 3:50

(A) Renat Past Sistersville made 1 product for GE.
They sent PCS to make product.

(B) We still make a product using
Phenylethyl methyl dichloro silane [WE MAKE]

Action:

1) Review recent GE products made 1973-1974
2) Examine past records for use of PCS
3) Request from EPA (mobil) a letter asking specific questions of concern.
4) Review Corporate memo of Apr 30 80 meeting

MPM000644

EPA003635

Products Prior 1975

R 63 Poly I [A152 Pheno tri chlor silane]

AT 134 Poly I Sm Scale

Y 5720 [John Walsh] R850 silicone 70% → Mort Clabea
Poly capro lactone 30%
(75% Pheno tri
25% Amyl ethyl tri) 1970

GE Product (Pheno tri ethoxy silane) Tom Hurley

Then sent Phen tri chlor silane → we made Pheno tri ~~methoxy~~ ethoxy silane A153

MADE A153 OCT ~~[illegible]~~ AUG } 1978 → [Added Ethanol]

OCT 23,000 lbs

AUG 19,500 lbs [4-5 Drums A 153 buried]

42,500 Total

[K56 – 1962 Make P trichlor silane]

USE different technique }

No Chlorine to chlorine Benzene →

have sampled inactive landfill and showed to

Gary Benzer when visited
