Caveats: NONE

Scott,

I tried calling you to go over a few comments and edits on the All American RV Resources C&D letter. Attached is a PDF with my notes and edits. I wasn't sure if the project was complete. Also, why did we determine that "the work has not resulted in an irreversible adverse impact on the public interest?" I'm not clear on why we made the determination, but please keep in mind that an RV camping area is likely not water dependent. Other minor edits are included.

Take Care,

Kyle R. Lewis
