Subject: EPA-HQ-2019-008232

During the processing of your prior FOIA request in November 2017, we found that our initial collection of correspondence was overbroad and largely non-responsive. Approximately 40,000 records were collected during the search and 80% of the records were non-responsive and unrelated to Subpart OOOOa's or new source performance standards for the oil and gas sector. In an effort to respond to your current FOIA request with responsive records as quickly as possible, we would like to propose the following search terms for your second request - Copies of all internal correspondence between EPA and outside parties containing reference to the new source performance standards for the oil and gas sector. We would like to propose narrowing the search terms to the following.

("40 C.F.R. §60.5420a(b)(9)(i)" OR "40 C.F.R. §60.5422a(b)" OR "40 C.F.R. §60.5420a(b)"

"OOOOa" and w/10 ("comply" OR "complies" OR "complying" OR "compliant" OR "compliance")

"OOOOa" AND ("deadlines" OR "delay" OR "delays" OR "delayed" OR "delaying" OR "extend" OR "extends" OR "extending" OR "extension" OR "extensions" OR "postpone" OR "postpones" OR "postponed" OR "postponing" OR "postponement" OR "variance" OR "variances")

For records responsive to your first request - Copies of all reports submitted to EPA pursuant to Subpart OOOOa's reporting requirements. The Performance tests and reports pursuant to OOOOa are now publicly available. We are directing you to go to the Webfire site to obtain the reports. There are currently over 800 reports in the system.

If you would like to discuss this further, please feel free to contact me.

Antoinette Powell Dickson, Esq.
