Greg,

I reviewed the tolling agreement sent by Matt to OC. Janice signed it and I placed it on your chair. I figured it would be good practice to have the tolling agreement signed just in case the EPA hangs onto the case for a long time but then kicks it back to us to deal with.

Take Care,

Kyle,

Good morning. I received an email late afternoon that EPA is going to request the file for Blue Lake. Sounds like there will not be a need to sign the Tolling Agreement. Could I get the application, pictures, and information that the applicant sent mailed up to me so that I may include it in the file for EPA.

Thank you
Scott

Kyle,
Have you had a chance to review this yet?

Thank you
Scott

Kyle said he had looked at the cease & desist letter when it went out in December, so I asked him to take a look at the tolling agreement, too. I'll pass your response along to him--

Barbara,

Scott Matthews is the PM and his response to your question is below. Note that EPA has expressed interest in taking action on this so I believe we would need to determine their course of action prior to accepting the application and signing the tolling agreement. Please let us know if you agree or suggest another course of action.

Thanks,

Greg McKay

Greg,

This is the first information application we have received from the applicant. We had talked in the field about doing a combination of an after-the-fact and restoration and he requiring mitigation.

EPA has still not determined if they were going to take it or not. They were sending an additional information letter to the applicant.

Scott

Scott,

I assume the answer to this is yes, correct? Was this info that came in with the tolling agreement the first application we have received or just supplement info?

Thanks,

Greg McKay

Hey Greg,

Have you all accepted the ATF permit application by All American RV for this violation? thx
