Subject: RE: emissions question
Date: Thursday, June 15, 2017 10:32:46 AM

Sorry for my late response but I am working out of the country this week and a little behind on email responses. Kevin Wagner told me that he has talked to you about the TRI EO emissions.

Let me know if you have any remaining questions.

Regards,
Kathy

Subject: emissions question

Kathleen,

Sorry I missed your call last week. Your assistant provided me with your email so that we could communicate this way while you are out of the country.

Could you please verify the ethylene oxide emissions from Sterigenics facility located at 7775 Quincy St, Willowbrook, IL? US EPA has your emissions from 2014 to be 5241 lb (fugitive 205 lb, stack 5036 lb) or 2.62 tpy. Is this correct? How were the emissions calculated (estimated, mass balance, etc)?

Thank you in advance for your assistance,
Margaret
