That works for me! Would you like to give me a call at that time? (206-553-0692)

Thanks,

Hi Maryanne,

Now that tomorrow has been designated a federal holiday, I won't be working. Would Thursday (after 12:30) or Friday (any time) work?

Thanks Miranda, I am free tomorrow after noon from 1:30 to 4:30 if that time slot works for you.

Hi Maryanne,

Thanks for getting back to me. Sure, I would be happy to talk about this on the phone. Looking at my calendar this week, Wednesday and Thursday afternoons (after 12:30 PM) and all day Friday are open for me.

Thanks,

Miranda Hodgkiss

Hello Miranda, sorry for the delay. Is there a time when we could discuss the data request over the phone? I have some questions about how it will be used. Thanks

Hello Miranda, thanks for contacting me about the Deschutes. We do have an incredibly rich dataset going back to 1975 for the Upper Deschutes. I will look into a data sharing agreement with the EPA for use in the TMDL modeling and get back to you.

Maryanne

Subject: Temperature and Sediment Data in the Deschutes Watershed

Hi Maryanne,

My name is Miranda Hodgkiss, and I work in EPA Region 10's Seattle office. I am currently working on a Total Maximum Daily Load (TMDL) Project in the Deschutes River Watershed. I was speaking to Erica Marbet with the Squaxin Indian Tribe, and she shared your two studies with me. *Temporal and Spatial Turbidity Patterns over 30 Years in a Managed Forest of Western Washington* from 2009, and *Stream Temperature Patterns over 35 Years in a Managed Forest of Western Washington* from 2015. I hope to read through the papers in more detail soon, but just from glancing at them, it seems you have collected a large amount of temperature and sediment data in the watershed. I'm wondering if it is possible for you to share this data with us, as it would greatly improve our modeling efforts as we look at

temperature and sediment impacts in the watershed. I'm happy to discuss the TMDL project more with you if you'd like, and answer any questions you may have.

Feel free to email me back or call me at 206-553-0692. I look forward to hearing from you.

Thanks,

Miranda
