Hi Matt,

Jon and I are working on this.. I don't have a map of the sampling locations from CTEH. Jon sent me an earlier one but it looks like it doesn't have all the sampling points. Do you have that available that you could send my way? Thanks.

This includes the first of their PFAS sampling, please let me know your thoughts especially on that data. Thanks

Subject: Analytical water data 11/27/19-11/30/19

Good evening,

Please see attached, the analytical water sampling data from sampling that took place from November 27, 2019 through November 30, 2019. Two laboratories, Pace and Earth Analytical Services, are analyzing each sample. Hence, we will be able to compare side-by-side samples from the same location, but analyzed at a different lab. CTEH is in the process of data validation and preparation of summary tables. This is a priority for this evening and I will send the summary data as soon as it becomes available. In the meantime, you will have the data files to review at your convenience.

Please do not hesitate to call me to discuss.

Sincerely,

Angie Perez, PhD
