> More details:
>
> > As winds shifted from the west, elevated concentrations of 1,3-Butadiene were reported in the community located southwest of the Site (sustained at approximately 0.7 ppm) and the fire station (sustained at approximately 9.0 ppm) located at the southwest boundary of the Site. Measurements were confirmed, and Unified Command notified the local authorities. The County Judge recommended sheltering in place for Port Neches effective from 6:00 pm on December 4, 2019 until 6:00 am on December 5, 2019. Elevated 1,3-Butadiene concentrations continue to be monitored in the community at this time. Unified Command continues to evaluate the situation. The Port Neches- Grove ISD has canceled school for the remainder of the week.
