Hi Emma
No problem- field work calls!
Given the late time frame, why don't we both just turn ours in to Amanda and Tom and then at the next stage we can pay special attention to consistency? Given the schedule for conference calls etc, it appears there will be ample opportunity. Either way, I attach Q3B text so you have it- I don't think it will change much given input previously from my group.
(b) (6) [redacted].
Jen

Dear Jen,
(b) (6) [redacted] I wanted to send this to you asap. I know we are coming up on our deadline of Jan 31. My group has provided me feedback on the draft of our section. Jud sent me this a couple of days ago and my group members have not added more references but the text is on track.
Maybe you can have a look and see if it matches what your group sent.
If you send me your groups text, I can look at the next time I can get internet in the next couple of days. I (b) (6) [redacted].

I hope that you are well,
Emma
